

We are hiring: Diplomate Neurology (F/M/D) - FRONTIER VETENARY SPECIALISTS

Eastern Munich, Germany

FRONTIER VETERINARY SPECIALISTS is a new and modern specialty and referral center for dogs and cats in eastern Munich. In collaboration with our referring veterinarians, our common goal is to ensure the best patient care. Our team consists of internationally recognized specialists (currently 6 Diplomates, 1 Residency Trained) covering the fields of surgery, neurology, internal medicine, imaging, anaesthesia, oncology, and cardiology. We also have our own physiotherapy department to complement our range of services. With state-of-the-art equipment and a commitment to constant education and research, we stay up to date. We prioritize love for animals, a strong team spirit, respectful collaboration, and professional development.

YOUR RESPONSIBILITIES

- Consultation, diagnostics and treatment of neurological patients
- Performing neurosurgical procedures - supported by our surgery team as required
- Guidance, training, and continuing education of the Specialty Intern in Neurology, as well as rotating interns
- Ideally, establishment of a residency program starting in 2024

YOUR PROFILE

- Diplomate of the European College of Veterinary Neurology (ECVN), American College of Veterinary Internal Medicine (ACVIM) Neurology or board eligible
- German Approbation / medical license (Goethe B2)

STATE-OF-THE-ART EQUIPMENT

- 1.5T High-Field MRT (Siemens)
- 128 Slice CT (Siemens)
- Logiq E10 Ultrasound (GE)
- Natus Key Point Focus Electrodiagnostic Device (EMG, MNCV, Rep. nerve stim., BAER)
- State-of-the-art neurosurgical equipment for spinal and intracranial surgeries
- In-house laboratory / Cerebrospinal fluid centrifuge
- Aqua Trainer, Matrix, Laser

WHAT WE OFFER

We offer a friendly and supportive environment, good teamwork, interdisciplinary collaboration on all cases, structured workdays (no night or weekend shifts), a competitive salary package including a training budget, and the opportunity to contribute to the establishment of the referral center. We place a strong emphasis on research and education (internships, residencies), and we support your professional development.

Sounds enticing? We look forward to receiving your comprehensive application, including your resume and references, at:
