

Neurology Locum Position for 2nd January - 9th February 2024 at the Eastcott Referrals, Swindon, UK

Eastcott Veterinary Referrals is situated in Swindon, Wiltshire, between Bristol and London and close to the Cotswolds and the North Wessex Downs area of outstanding natural beauty.

We are seeking a diploma holding or residency-trained locum neurologist to join our friendly and helpful team while two colleagues are on study leave for the ECVN examination. You will be working with an experienced ECVN diplomate, a neurology intern and our dedicated team of neurology and imaging nurses.

- This is a 6 week position, but part cover will be considered
- Full-time based on a 4-day week.
- Participation in out of hours rota is optional

Eastcott Veterinary Referrals is situated in Swindon, Wiltshire, between Bristol and London and close to the Cotswolds and the North Wessex Downs area of outstanding natural beauty. In 2020 we completed a major extension and refurbishment which means the successful candidate will be able to take advantage of the new cutting-edge facilities. It's a great time to join our dynamic and motivated team that has benefited from the support of the Linnaeus Group and Mars Veterinary Health.

This investment in our state-of-the-art facilities has allowed us to provide the best care to our patients, and the opportunity to perform the most up-to-date and innovative techniques. We encourage our staff to undertake further professional and personal development and provide a friendly and supportive environment in which our clinicians can flourish and enjoy their work.

You will be working within our multi-disciplinary hospital which includes soft-tissue surgery, orthopaedic surgery, dental/maxillofacial surgery, neurology, ophthalmology, internal medicine, diagnostic imaging, and Emergency and Critical Care. We are equipped with high field MRI, 64 slice CT, electrodiagnostics equipment and a wide range of neurosurgical equipment. We have an in-house physiotherapy service and a purpose-built ICU staffed with ECC clinicians.
